Seattle, WA 98101

Dear Jim:

Subject: Notification of Conflict of Interest
Contract 68-01-7251 -- REM IV

As Pat Taylor described to you this morning, CH2M HILL has been under contract with the U.S. Department of Agriculture (USDA) for miscellaneous work in support of its operations in the Pacific Northwest. As an outgrowth of this assignment, we have been tasked to support remedial measures for closure of a pesticide disposal drainfield at USDA's Yakima Agricultural Research Laboratory (YARL), Yakima, Washington. This letter is to inform you of this assignment and to indicate CH2M HILL's intent to work closely with Region X to achieve mutually acceptable remediation of this National Priorities List (NPL) site.

Please contact me if we need to discuss this situation further.

Sincerely,

William T. Dehn
Regional Manager
REM IV--Region X
